

**Igor O. Usov**  
Los Alamos National Laboratory  
Materials Science and Technology Division  
Engineered Materials Group

---

**EDUCATION:**

Jul'99 – Aug'02      **Ph.D. program in Applied and Materials Science**  
University of North Carolina, Chapel Hill

Sep'85 – Feb'93      **M.S. program in Physics**  
St.Petersburg State Technical University, St.Petersburg, Russia

**EXPERIENCE:**

Oct'10 – present      **Team Leader**, Los Alamos National Laboratory, Thin Films and Coatings Team

- Physical and chemical vapor deposition of coatings and thin films
- Fabrication and characterization of depleted uranium oxide films
- Surface Probe Microscopy of Pu and actinide compounds

Feb'06 – Oct'10      **Technical Staff Member**, Los Alamos National Laboratory, Ion Beam Materials Laboratory

- Radiation damage effects in various materials
- Chemical composition measurements by ion beam analysis techniques.
- Development of ion implantation, ion beam analysis and ion irradiation capabilities.
- Operation and maintenance of NEC Tandem accelerator and Varian ion implanter

Jan'03 – Feb'06      **Postdoctoral Associate**, Los Alamos National Laboratory, Superconductivity and Technology Center

- Development and optimization of buffer layer architecture for 2<sup>nd</sup> generation high temperature superconducting wires.

Jan'99 – Dec'02      **Teaching/Research Assistant**, University of North Carolina at Chapel Hill

- Ion implantation and annealing of GaN.
- Taught Physics laboratory classes for graduate and undergraduate students.
- Operated and maintained 200 keV ion implanter (Eaton NV 3204).

Apr'93 – Jun'98      **Research Scientist**, A.F. Ioffe Physical-Technical Institute of Russian Academy of Sciences, St. Petersburg, Russia

- Ion implantation effects (doping, microstructural changes, diffusion) in SiC single crystals.
- Formation of electrically conducting layers in ion implanted polyaniline.
- Fabrication and characterization of high temperature superconducting films.
